CB-26P Fitting position

Peugeot 309

Probably a collectors item now this Peugeot 309 performed better than new according to its owner who was an engineer from Surrey. He said:

"As soon as I pulled away after fitting I knew the device had made a big difference - the engine was much more responsive and acceleration was smoother - this was a big bonus given that I am now getting at least 10% fuel savings. This is the best car accessory I have ever bought!"
